ASSERTIVE COMMUNITY TREATMENT (ACT)

Assertive Community Treatment (ACT) is a recovery focused, high intensity, community based service for individuals discharged from multiple or extended stays in public hospitals, individuals with multiple incarcerations, and/or individuals who are difficult to engage in treatment.

ACT utilizes an interdisciplinary team to provide intensive, integrated, and rehabilitative crisis treatment and community support interventions/services that are available 24 hours/7 days a week.

Services include but are not limited to getting help with locating supportive housing, securing employment, individual training, group training, crisis assessment, support and intervention, assistance with personal development, family counseling/training, assistance with financial management skill development, and substance abuse counseling and intervention.

PEER SUPPORTS (PEER)

PEER provides structured activities that promote socialization, recovery, wellness, self-advocacy, development of natural supports, and maintenance of community living skills. Activities are provided among individuals who have common issues and needs.

PSYCHOSOCIAL REHABILITATION (PSR)

Psychosocial Rehabilitation (PSR) is a therapeutic, rehabilitative, skill building and recovery promoting service for individuals to gain the skills necessary that will allow them to remain in or return to naturally occurring community settings and activities.

Services include but are not limited to individual and group skill building activities that focus on the development of skills to be used by individuals in their living, learning, social and working environments, social, problem solving, and coping skill development, illness and medication self-management.
